

ASX Announcement 22 April 2026

Completion of Maiden Drilling at Two Pools, retraction.

Corazon Mining Limited (ASX: CZN) ('Corazon' or 'Company') refers to the ASX announcement dated 9 April 2026 entitled 'Completion of Maiden Drilling at Two Pools' (Announcement). On page 1 of the Announcement highlights bullet point 3, the following statement was made "**Visual logging confirms the mineralised system at depth** and validates the structural thesis underpinning the program design, with core meeting and exceeding geological expectations". Further in a comment by Simon Coyle "*What we've seen visually in the core has met and exceeded our geological expectations; the structure and mineralisation we were targeting is clearly present*".

Corazon wishes to retract the reference to visual mineralisation on the basis that the Company has not yet completed the assays necessary to determine the abundance of mineralisation sufficient to allow the compliant reporting of visual results. As a consequence of the retraction of the comment, Corazon advises that the retracted comments should be disregarded and that investors should not rely on the retracted comments.

Assays have been submitted. First results are anticipated over the coming weeks. All results will be released to the ASX promptly upon receipt and completion of QA/QC review

This announcement has been authorised for release by the Managing Director.

Competent Persons Statement and Previously Reported Information

The information in this report that relates to exploration results and proposed activities is based on and fairly represents information compiled by Mr. Warrick Clent (B.Sc (Geol), member of The Australasian Institute of Mining and Metallurgy), a consultant of Corazon Mining Limited. Mr. Clent has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Mr. Clent consents to the inclusion in the report of the matters based on this information in the form and context in which it appears.

The information above that relate to Exploration Results has previously been released to the ASX. The Company confirms that it is not aware of any information or data that materially affects the information included in those market announcements, and that all material assumptions and technical parameters underpinning the announcements continue to apply. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcements.

Forward Looking Statements

This announcement contains certain statements that may constitute a “forward looking statement”. Such statements are only predictions and are subject to inherent risks and uncertainties, which could cause actual values, results, and performance achievements to differ materially from those expressed, implied or projected in any forward-looking statements. Forward-looking statements are statements that are not historical facts. Words such as “expect(s)”, “feel(s)”, “believe(s)”, “will”, “may”, “anticipate(s)” and similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to statements regarding future production, resources or reserves and exploration results. All such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the control of the Company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to: (i) risks associated with acquisition and divestment of projects (including risks associated with completing due diligence and, if favourable results are obtained, 5 ASX Announcement | 8 October 2025 proceeding with the acquisition of the Feather Cap Project), (ii) those relating to the interpretation of drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (iii) risks relating to possible variations in reserves, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iv) the potential for delays in exploration or development activities or the completion of feasibility studies, (v) risks related to commodity price and foreign exchange rate fluctuations, (vi) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vii) other risks and uncertainties related to the Company’s prospects, properties and business strategy. Our audience is cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and we do not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events. The Company believes that it has a reasonable basis for making the forward-looking Statements in the announcement based on the information contained in this and previous ASX announcements. The Company is not aware of any new information or data that materially affects the information included in this ASX release, and the Company confirms that, to the best of its knowledge, all material assumptions and technical parameters underpinning the exploration results in this release continue to apply and have not materially changed.

About Corazon

Corazon Mining Limited (ASX:CZN) is an Australian mineral exploration and development company with a strategic focus on high-grade gold exploration in Western Australia.

The Company's primary focus is the rapid exploration and advancement of its West Australian gold portfolio, located in the highly prospective Gascoyne Region. This portfolio consists of two key projects:

- 1) **The Two Pools Gold Project:** Located within the proven Plutonic-Marymia Greenstone Belt, hosting high-grade historical intercepts within a previously overlooked greenstone belt.
- 2) **The Feather Cap Gold Project:** A recently secured project strategically located in the Bryah-Padbury Basin, along strike from major gold deposits and hosting multiple walk-up drill targets.

This WA gold strategy is complemented by Corazon's portfolio of battery and base metal assets, including the 100%-owned Lynn Lake Nickel-Copper-Cobalt Sulphide Project in Manitoba, Canada, which hosts a significant JORC resource and offers long-term development potential. This dual-asset strategy positions the Company to deliver shareholder value through both potential high-impact gold discovery and leverage to the growing critical minerals market.
